October 5, 2011

Mark E. Cupp, Executive Director
Lower Wisconsin State Riverway Board
202 No. Wisconsin Ave.
PO Box 187
Muscodia, WI 53573

Dear Mr. Cupp:

Pattison Sand Co., LLC (PSC) respectfully submits four nonmetallic mining permit applications to perform mining activities within the boundary of the Lower Wisconsin State Riverway for your review.

PSC proposes to mine industrial sand at four contiguous properties located along and south of STH 60 in Bridgeport Township, Crawford County, Wisconsin. Included are the Flansburgh, Marfilius, L. Pulda, and E. Pulda properties. The Wisconsin River borders the properties to the south. Please refer to the enclosed maps.

Staged mining and reclamation will occur over the life of each individual mine. No on-site processing of sand will occur; minimal stockpiling will occur. Mining activities are tentatively proposed to begin spring of 2013 and will likely last 20-60 years pending market demand.

As you will notice on the enclosed Mining Phases maps, PSC has omitted two areas of concern from our proposed activity areas: 1-the prominent bluff on the E. Pulda property and 2-the stockpile area just north of the bluff on the L. Pulda property. Due to your concern, we have deleted activity in these areas.

We are open to discussions about Best Management Practices that could be employed in order to avoid visual impacts in the areas of concern. We look forward to meeting with you on-site on October 11(2:00 pm).

Please don't hesitate to contact me or Beth Regan should you have questions or comments.

Sincerely,

Kyle Pattison
Manager

Cc: Property Owners: Flansburg, Marfilius, L. Pulda, E. Pulda

Enclosures: maps as stated

PERMIT APPLICATION

DATE: 10-5-12

PERMIT TYPE: NON-METALLIC MINING

PERMIT REQUESTER: ALAN + KATHY FLANSBURGH Pattison Sand Co., LLC
701 1st St.
Clayton, IA 52049
563-964-2860

STREET ADDRESS: 58153 STH 60

CITY, STATE, ZIP: PRAIRIE DU CHIEN, WI 53821

TELEPHONE NUMBER: (608) 326-6300

SITE LOCATION: 58153 STH 60

ACTIVITY: Pattison Sand Co., LLC (PSC) proposes to mine industrial sand at four contiguous properties located along STH 60 in Bridgeport Township, Crawford County, Wisconsin. Included are the Flansburgh, Marfilius, L. Pulda, and E. Pulda properties. The Wisconsin River borders the properties to the south. See attached maps.

DESCRIPTION: As part of the proposed project, material will be removed from the surface mine using conventional equipment such as backhoes and loaders. Activities at the site include: removal of overburden, occasional blasting, excavation of material, using a grizzly to size material, reclamation of mined areas, loading of material into trucks, and transport of sand off-site via truck. No on-site processing of sand will occur; minimal stockpiling will occur. Staged mining and reclamation will occur over the life of each individual mine. Mining activities are tentatively proposed to begin spring of 2013 and may occur over a 20+ year timeframe.
